SENIOR EXECUTIVE PROGRAM

Our primary SEP instructor, Dr. Avi Wiezel, has identified that being the supervisor of a mid-level manager does not make one a Senior Executive. Senior Executives are in charge of the company culture and strategy. They create, identify, and follow up on new opportunities for the company (new domains, new regions).

Please elaborate below how in your current role you have been able to achieve the definition of a senior executive by detailing the following points (please a separate page, if necessary.)

- a) Developing new opportunities for your organization
- b) Impacting your company's culture and strategy
- c) Involved with your company's strategic planning

It is my understanding that the ABA Senior Executive Program is a learning experience and requires attendance at all meetings. Class meets one Wednesday of each month from 7:30am – 2:30pm.

Class Dates for 2019 are: August 14th, September 11th, October 2th, & November 6th

If you cannot make this commitment, your application will be considered for the next year.
