Addiction Doesn’t Have to be a Life Sentence

You aren’t alone in addiction. Over 25% of patients undergoing long-term opioid therapy struggle with addiction.

If you or a loved one need help with an opioid addiction, please use a lifeline:

- Talk with your doctor about starting an opioid-free treatment, like acupuncture or chiropractic therapy, for your pain

- Visit SAMHSA.GOV or call the NATIONAL HELPLINE at 1-800-622-4357 for addiction and treatment resources
